

[DOCUMENT NAME]

ABSTRACT OF THE DISCLOSURE

[SUMMARY]

[OBJECT]

To provide a recording tape cartridge in which the ease of assembling a shielding member and an urging member into a case is improved.

[MEANS FOR SOLUTION]

A recording tape cartridge 10 has a rectangular case 12 which rotatably accommodates a single reel 14 on which a recording tape T is wound, an opening 20 which is formed in the case 12 and is for pulling-out of a leader member 22 attached to an end portion of the recording tape T, a shielding member 50 for opening and closing the opening 20 by sliding, and an urging member 56 for urging the shielding member 50 in a direction of closing the opening 20. A supporting means 54A, which supports the urging member 56 in a cantilevered state, is formed at a portion for attachment 54 of the urging member 56, which portion for attachment 54 is provided at the shielding member 56.
